

A word cloud of data science tools. The words are color-coded: green for data cleaning, orange for visualisation, and purple for infrastructure. The words are arranged in a roughly triangular shape, with 'validate' and 'deductive' being the largest. 'tabplotD3' is written vertically on the left. 'lumberjack' and 'LaF' are in the middle. 'tmaptools' and 'errorlocate' are at the bottom. 'simputation', 'validate', and 'tools' are at the top. 'lvec' and 'ffbase' are small words in the middle. 'rspa' and 'dcmodify' are in the lower middle. 'treemap' is a small word near 'tmaptools'.
